Value Plastics certifies that the products referenced below are manufactured to comply with all technical specifications stated on the Value Plastics website, stated in the current catalog and referenced on current part drawings found at <http://www.valueplastics.com>. All products manufactured by Value Plastics are visually inspected to a 0.65 AQL. Value Plastics sample sizes are based on ANSI/ASQCZ 1.4 Table II-A single-sampling plans for normal inspection. Value Plastics certifies that the injection molding processes and secondary operations are conducted in an environment that meets ISO standard 14644-1 Class 8 for clean rooms (previously known as Class 100,000 clean rooms as defined by Federal Standard 209E Airborne Particulate Cleanliness Classes in Clean Rooms and Clean Zones.) Prior to ordering, prospective customers are encouraged to request product samples, to review Value Plastics part drawings and to test Value Plastics products in their use environments. Technical specifications referenced above may include the following: product change notification, quality systems, clean room manufacturing, luer tapers, thread styles, barb styles and performance, material information and other technical FAQs. Visit <http://www.valueplastics.com> for further information.
